

Evaluate

Matter budgeting & pricing for law firms

The pricing & planning challenge

Increasing client, regulatory, revenue and cost pressures mean that law firms now more than ever have to properly price, plan and manage complex matters seamlessly, yet intuitively, to maintain both client expectations and profitability.

Evaluate

Launched by DW Reporting in response to client requests, Evaluate, is a next generation legal matter planning, pricing and cost management solution tailored to the requirements of fee earners and law firm management teams throughout the lifecycle of a matter.

Evaluate ensures that legal teams are able to plan, manage and monitor all matters from both a financial, regulatory & customer perspective.

Simplicity is the core to Evaluate and it provides legal teams with intelligent and intuitive dashboards that provide the essential information to map, plan, monitor and track matters without the need for extensive training or systems management.

Furthermore, Evaluate is an agnostic, standalone solution that works seamlessly with existing legal business applications and is flexible enough to work alongside ever changing business requirements.

Evaluate provides law firms with an end-to-end solution for coherently budgeting and managing the key assets of the business, legal matters.

Evaluate puts the management of matters back in the hands of the individuals who need it most.

ANALYSE

“We need to analyse our results more quickly”

MONITOR

“We need a system to assess how well the firm is performing”

MANAGE

“We need to give our fee earners access to better information”

Why Evaluate?

Analyse	Focused on driving business value.
